Summary of Resolution Amending the “Resolution Authorizing the University of the Virgin Islands General Obligation Improvement Bonds 2004 Series A” Adopted on February 21, 2004

- On February 21, 2004, the Board of Trustees authorized the issuance of the University of the Virgin Islands General Obligation Improvement Bonds, 2004 Series A (the “2004 Series A Bonds”) in a maximum par amount not to exceed $25,000,000, to be sized such that the Annual Debt Service payable on such 2004 Series A Bonds, together with all outstanding long term debt of the University, shall not result in the annual Aggregate Debt Service Requirement payable by the University to exceed $3,192,205 (the “Original Resolution”).

- The 2004 Series A Bonds were issued on August 3, 2004 and sized to optimize the amount of bond proceeds available to the University and to comply with the intent of the Board of Trustees to limit the Aggregate Debt Service Requirement to $3,192,205, the current annual line item appropriation. Upon consultation with the Underwriter and Bond Counsel to the University, the Administration and Chairman of the Budget and Finance Committee, approved a commonly utilized financing structure which assumes that amounts reasonably expected to be on deposit in the Debt Service Reserve Fund be applied for the payment of the final maturity of the 2004 Series A Bonds.

- The proposed revision of Section 2(iv) clarifies that for purposes of calculating the Aggregate Debt Service Requirement for Fiscal Year 2034, the Aggregate Debt Service Requirement shall be reduced by the amount reasonably expected to be on deposit in the Debt Service Reserve Fund and amounts in such fund shall be applied towards the payment of debt service on the final maturity of 2004 Series A Bonds in accordance with terms of the Master Indenture.
