UVI DIRECTORY OF FACULTY AND STAFF PROFESSIONAL INTEREST
(Including experts in the field)
Vision

The University of the Virgin Islands will be an exceptional U.S. institution of higher education in the Caribbean dedicated to student success, committed to excellence, and pledged to enhancing the social and economic transformation of the U.S. Virgin Islands.

Mission

The University of the Virgin Islands is a learner-centered institution dedicated to the success of its students and committed to enhancing the lives of the people of the U.S. Virgin Islands and the wider Caribbean through excellent teaching, innovative research, and responsive community service.
This directory was created by the Director of Academic Administration as a result of the many Town Hall meetings held requesting input from the community on how the University can better serve the community’s needs. It is a medium by which individuals outside of the University can make contact with departments or units for technical support, expert advice, or any other kind of professional assistance.

In its fifth year of publication, the directory has been updated to include experts in the various fields of study.
