

FACULTY RECRUITMENT AND DEVELOPMENT

(Board of Trustees Meeting, February 17-18, 1972)

A statement entitled A Review of the Faculty and Staff of the College of the Virgin Islands had been circulated prior to the meeting, and this document was the basis for a discussion...of the faculty recruitment policies and practices of the College. This discussion led the Board to reaffirm for a third time its statement entitled Employment Policy of the Board of Trustees.

During this discussion, the President and the Provost and Dean asked for the Board's endorsement of a doctoral program to help make it financially possible for faculty members and for other very promising Virgin Islanders to pursue a doctorate within their field of competence. The Board of Trustees endorsed this program.
