UVI Board of Trustees

Administration and Conference Center

3rd Floor Room 323

(340) 693-1008

Dear Board of Trustees,

The USVI Junior Golf Program is seeking permission to construct a 4000 square ft. putting and chipping green on UVI property.

We are principally seeking approval to build this structure. All monetary responsibilities including building, labor and maintenance associated with the green will be assumed by the USVI Junior Golf Program with the stipulation that UVI be willing to allow use of their water source.

We propose that the green be accessible to all UVI constituents as well as the public. However, final accessibility will be determined at the board's discretion.

It is our hope that you will share in the belief, that this venture will not only provide the necessary tools for the Virgin Islands youth to advance their passions for the sport of golf but also act as a source of municipal functionality, leisure and beautification for the entire Virgin Islands community.

It is our utmost intention to gain your aid and alliance in this endeavor and we keenly look forward to hearing from you.

Kind Regards,

Arthur Egger

Junior Golf Director
