

## UVI WEBSITE CUSTOMIZATION & HOSTING SERVICE OPTIONS

The University is excited to announce the launch of our newly redesigned website on the powerful yet approachable content management solution, Cascade Server. Cascade Server allows end users to easily create, update and delete website content via an intuitive user interface. We will have a variety of templates to manage different types of content like news/events, home page, documents, and standard web content. The new content management system and design templates will be available to you as well as other hosting options through our web solutions partner, Beacon Technologies.

We have listed a variety of options below should you choose to use any of the University's Cascade Server templates or desire to move your website to a separate microsite. Beacon offers a robust, full-service hosting infrastructure at discounted rates for UVI.

<b>Shared Server Option:</b> UVI Microsite on shared server with 3GB of disk space, 30GB data transfer, FTP access and CGI-Bin. No Content Management System.	\$249 setup + \$420/year	
<b>Dedicated Server Option:</b> UVI Microsite on UVI's dedicated web server with Cascade Server content management system, monthly Google Analytics website traffic report, and Spectate eForms and eMarketing system. Pricing is based on the following disk storage requirements plus an initial setup fee of <b>\$249</b> .	50MB of disk space	\$100/year
	100MB of disk space	\$200/year
	200MB of disk space	\$300/year
	300MB of disk space	\$600/year
	400MB of disk space	\$800/year
	500MB of disk space	\$1,000/year
	750MB of disk space	\$1,500/year
	Utilize all of UVI's standard templates with custom color palette (max 2 colors)	\$875 setup
Custom Homepage Template Creation	\$1500 setup	
Custom Standard Content Page Template Creation	\$1500 setup	
Custom News/Events Template Creation	\$1500 setup	
Custom Documents Template Creation	\$1500 setup	
Once the templates are created and installed, web pages can be created by client in Cascade Server using the various templates. If requested, Beacon can create a web page for the Client within Cascade Server, but the Client will be responsible for providing the actual content that will be placed on the page.	\$10/page	
Forms can be created by client in Spectate. If requested, Beacon can create a form for the Client within Spectate.	\$500/form	

Rates valid through December 31, 2013.

If you are interested in any of these options, please contact the University's Webmaster, Moneca Pinkett at (340) 693-1495 or mpinket@uvi.edu. She is available to discuss options available.
